

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: William Moeller
DOCKET NO.: 05-24230.001-R-1
PARCEL NO.: 04-14-301-134-0000

The parties of record before the Property Tax Appeal Board are William Moeller, the appellant, by attorney Joanne P. Elliott of Elliott & Associates in Des Plaines, and the Cook County Board of Review.

The subject property consists of a five-year-old, two-story, single-family dwelling of masonry construction containing 2,679 square feet of living area and located in Northfield Township, Cook County. Features of the residence include two and one-half bathrooms, a fireplace, air-conditioning, a partial-unfinished basement and a two-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on seven properties suggested as comparable to the subject. Based on the appellant's documents, the seven suggested comparables consist of two-story, five-year-old, 2,679 square foot, single-family dwellings of masonry construction located within the same survey block and development as the subject. The comparables contain two and one-half bathrooms, a fireplace, air-conditioning, a partial-unfinished basement and a two-car attached garage. The improvement assessments range from \$20.79 to \$20.82 per square foot of living area. Based on the evidence submitted, the appellant requested a total assessment of \$63,001, with an improvement assessment of \$55,776 or \$20.82 per square foot of living area and a land assessment to remain unchanged at \$7,225.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,225
IMPR.: \$ 55,776
TOTAL: \$ 63,001

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$64,776. The subject's improvement assessment is \$57,551 or \$21.48 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, five-year-old, single-family dwellings of masonry construction located within the same survey block and development as the subject. The improvements contain 2,511 or 2,679 square feet of living area. The comparables contain two and one-half bathrooms, a two-car attached garage, a fireplace, air-conditioning and a partial-unfinished basement. The improvement assessments range from \$21.48 to \$23.67 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's seven comparables to be the most similar properties to the subject in the record. These seven properties are identical to the subject in improvement size, amenities, construction, age and location and have improvement assessments ranging from \$20.79 to \$20.82 per square foot of living area. The subject's per square foot improvement assessment of \$21.48 falls above the range established by these properties. Although the board of review provided one comparable identical to the subject in most respects, the Board finds that the majority of the comparables identical to the subject and provided by the appellant suggest the subject is inequitably treated. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
